We are committed to supporting the 85+ field personnel from the Bureau of Construction who are responsible for administering all State highway and bridge construction projects. The CS Team is cross-trained in multiple subject areas and can assist with a wide range of issues including computer, iPad, and iPhone hardware troubleshooting, repair and replacement; iPD and iCX; BlueBeam; GNSS rovers; SADES; as-builts; QC/QA asphalt and concrete; tools and equipment needs; data analysis and reporting; method of measurement and basis of payment interpretations; Build America, Buy America; and much more. We encourage field personnel to call, email, Teams message, or drop by anytime. We have established phone duty days and have set up our phones to ring to all desks in the Construction Services office. Call anytime between 7 AM and 4 PM. We are here to help!
