

# STATE OF NEW HAMPSHIRE

- INTRA-DEPARTMENT COMMUNICATION -

**DATE:** September 20, 2023

**FROM:** Lee J. Baronas, P.E.   
Administrator, Bureau of Traffic

**AT (OFFICE)**  
Department of Transportation  
Bureau of Traffic

**SUBJECT:** Standard Updates  
Intersection Details (PM-7)  
Word and Symbol Layout (PM-8)

**TO:** Bureau Administrators & District Engineers

## MEMORANDUM

The Bureau of Traffic is making updates to its Intersection Details (PM-7) and Word and Symbol Layout (PM-8) Standard Plans. While these revisions are being developed, this interim design will be used. It is expected to be approved by FHWA as a revision to the Standard Plans, and will accomplish the following:

- assure that AASHTO deceleration distances are achieved
- the current version of the MUTCD is met
- improve safety during layout and maintenance operations by reducing the time of exposure to live traffic
- reduce marking inventory to improve asset management

The existing Standard Plan Sheets and previous versions of these details should no longer be used or referenced. They have been taken off-line and replaced with a link to the Details which replace them.

Please note that the Details will need to be inserted as part of a project's plan-set where these types of markings are proposed.
