Asphalt Binder Suppliers are required to participate in the PEAS (formerly NTPEP) ABS Facility Audit program. PG asphalt binder grades are subject to NHDOT specifications. The PG asphalt binder supplied shall not be air blown or contain any form of used, recycled or re-refined oil (ex. REOB or VGO), PPA content shall be less than 1% by weight, and the “-28” low-end temperature of an asphalt binder performance grade shall be achieved with a “neat” binder only. The use of any extender to achieve the “-28” low-end temperature is not allowed. The low-end temperature of PG58-34 can be achieved with an approved “neat” binder or with the use of an approved virgin aromatic oil.
